

@realtyfinance

Let us introduce ourselves ...

We're the @realty finance lending specialists who will be assisting you with your home loan. Get to know us so we can help you with your loan. Introducing Adam Robson and Adam Kay, your @realty Finance lending specialists.

Find out about the advantages of using a broker

Having a broker negotiate finance on your behalf is the smart way to go as they look to save you time, stress and money. You might still be saving for your first home, wishing to use the equity in your current one, or wondering if you're getting the right possible deal with your existing lender.

Our pre-assessment process is the key!

Once in motion, we can supply you with this information in 24-48 hours. Our pre-assessment processes ensure you can go shopping with confidence. We can do this without having to complete a full bank application. We will give you purchase scenarios and let you know your true loan borrowing capacity. We will provide examples of loan repayments, and advise the amount of cash or equity you need to purchase your next home.

Let's get started!

The first thing we do is have a discussion with you to find out more about you, your current situation, and your goals. We can offer advice and provide you with options to consider. Once we agree on the right loan, we take care of the application, managing the process on your behalf.
