

## *Home buying made more open & transparent*

### Why Click 2 Buy?

- ✓ An online Offer Management Solution for an online world.
- ✓ Know exactly how many buyers you are competing against.
- ✓ Make offers online and receive updates directly to your phone.
- ✓ All types of sales are catered for with the agent choosing the most appropriate method.
- ✓ Save time and stress by doing it all from the comfort of your work or home.
- ✓ **Safe, secure and fast!**

### Don't miss out on the perfect home because you didn't have the full picture.

The real estate transaction has remained largely the same for decades and now, for the first time, that has all changed.

Know exactly how many buyers there are and when they make an offer. Know if you are leading the charge or need to increase your offer.

Click 2 Buy allows the agent to manage the sale from their phone and provide you with real time and instant updates on new offers, closing dates and, if need be, open the prices for a final competitive showdown.

## How it works?

1

Click the link on the property web page and simply register as a buyer and fill in the required fields.

2

Once you get your emailed invitation, choose your alert preference and wait for the sale process to begin online.

3

As the sale progresses, make offers until you either secure the property or it is won by another buyer.

4

No more filling out endless contracts for offers that don't go anywhere! No more wasted time sitting in an agent's office.

5

All offers can be fully transparent so you know exactly what you are competing against. Prices will only be disclosed at the discretion of the agent running the sale.

6

A final contract is filled out and signed by the vendor and winning buyer within 24 hours and the property is **SOLD!**
